DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-34, drawn to a method for applying a finishing agent to non-woven fabric during production of the non-woven fabric (process), classified in class 427, subclass 258.
 - II. Claim 35-53, drawn to a system for applying a finishing agent to non-woven fabric during production of the non-woven fabric (apparatus), classified in class 118, subclass 123.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case: (a) the apparatus as claimed can be used to practice a process in which the moisture content of the non-woven fabric is greater than 10%; (b) the process specifically as claimed in claim 19 can be performed with a system that does not include a drying apparatus; and (c) the apparatus as claimed can be used in a process of washing and/or rinsing the fabric after the forming thereof, followed by drying.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1762

4. A telephone call was made to Bill Polkinghorn on 9/29/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
